

# Robinson Twin Sheet Pallets

**Our plastic pallets offer the following benefits:**

- \*Superior protection for nearly any part or product.
- \*Easy storage and maintenance in challenging environments.
- \*No concerns about harboring or transporting pests.
- \*Longer life cycle compared to wood; reduce operational costs.
- \*Easy identification through custom colors, sizes, and stripes.
- \*Safer for workers since they are light weight and easy to handle.
- \***Overall reduction in logistics costs.**

Sizes may vary slightly based on gauge of material.

**Be sure to contact one of our experts for more detailed information at 877-465-4055.**

We are the leader in vacuum form technology. We are responsible for much of the technology and machinery that is still used in this industry today, such as the rotary thermoforming machine. We continue to develop new and innovative pallets, trays, and shipping solutions to meet your changing needs.

## Custom Design:

We also have a wide selection of Single Sheet Pallets and Structural Foam Pallets. We will **custom design** and manufacture the perfect pallet or tray for your needs if none of our existing sizes and options meet your specifications.
